

Color Screen

Real-time and clearer display of various values and appointment timing function.

Work Zone
Work zone, made of 304 stainless steel,
is surrounded by negative pressure.

Foot Switch
Adjust front window height by
foot during experiment, to avoid
airflow turbulence caused by arm
movement.

Remote Control

All functions can be realized
with it, making the operation
much easier and more convenient.

Front Window Motorized, Two-layer laminated toughened glass >6mm, Anti UV.

Footmaster Caster Universal caster with brake and leveling feet.

Cabinet Support Block Easy to lift, prevent hand pressing

Iron hook support rod for panel support

UV Lamp Emission of 253.7 nanometers for most efficient decontamination.

## **ADVANTAGE**

- Color key display: large screen, more clear and dynamic display of various values of the safety cabinet, and has the function of appoint ment timing.
- 2. Automatically adjust the wind speed.
- 3. With power-off memory function, the state before power-off will be restored after power-on, and there will be visual prompts and alarms.
- 4. The integrated design of the operation area makes it easy to disassemble and clean.
- 5. The cabinet is separated from the base. The height of the adjustable base can be customized.
- 6. Interlocking function: UV lamp and front window; UV lamp and fan, lamp; fan and front window.
- 7. It has the function of appointment timing, which can automatically set the time of starting and shutting down the safety cabinet and the running time of ultraviolet lamps, fans and sockets.
- The front window closes the double trigger signal, so that the sterilization and disinfection function of the ultraviolet lamp is normally turned on.
- 9. The negative pressure air duct is equipped with a foreign matter filtering structure to prevent foreign matter such as paper scraps from entering the fan system and affecting the normal operation of the product.
- 10. The front window glass has a one-key lift function
- 11. The cabinet is designed with a 10° inclination angle, which is in line with ergonomic principles, with a larger viewing angle, convenient operation and more humanization.
- 12. The one-piece hand rest has a large flat surface, which has a larger contact area with the arm and is more comfortable.
